

COMPASS LIBRARY

*A Family Resource for Thoughtful Choices,
Curiosity, and Real-World Discovery*

Emotional • Educational • Enrichment

*Notice.
Discover.
Shine
Brightly.*

A Whole Child Happenings Resource

Helping families grow with intention,
learn together, and celebrate every discovery.

Dedication

FOR EVERY CHILD

May you always remain curious.
May you notice the little things that others walk past.
May you discover beauty in nature, joy in learning,
and confidence in trying something new.
May your imagination stay alive, your kindness grow deeper,
and your courage carry you through every adventure.
Whether your path leads you to become an engineer, an artist,
a scientist, a teacher, a builder, a caregiver,
or something the world has not yet imagined...

Never stop asking questions.

Never stop exploring.

Never stop discovering who you were created to be.

FOR EVERY PARENT

Thank you for choosing to walk beside your child.
In a world filled with endless choices, your greatest gift
is not finding the "perfect" game. It is your presence.

The conversations you have...

The books you read...

The trails you walk...

The experiments you try...

The laughter you share...

These are the moments that shape a childhood.

This library is simply a compass.

You are the guide.

OUR HOPE

May these pages inspire meaningful conversations...

Encourage curiosity...

Strengthen families...

And remind every child that learning
is one of life's greatest adventures.

A Whole Child Happenings Resource

WELCOME TO THE COMPASS LIBRARY

Thoughtful choices. Curiosity. Real-world discovery.

WHAT YOU'LL FIND INSIDE

5 CAREFULLY CURATED VOLUMES

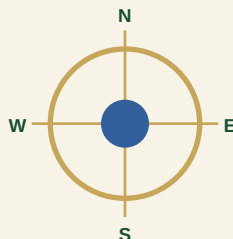

- **Volume One** — Science, Invention & Discovery
- **Volume Two** — Building, Creativity & Imagination
- **Volume Three** — Trains, Transportation & Machines
- **Volume Four** — Geography, Maps & World Cultures
- **Volume Five** — Next-Step Games for Growing Thinkers

OUR PROMISE TO YOU

We choose quality over quantity. Every recommendation is selected for thoughtful play, curiosity, creativity, problem solving, and age-conscious family use.

A NOTE FOR PARENTS

Games, platforms, ratings, online features, and content can change. Please preview current settings and decide what fits your own child and family.

Our Family Compass

Our Family Compass is the heart of the Compass Library.
It reminds us that every choice we make can guide our children
toward a life of meaning, learning, and joy.

Let this compass guide your family's journey.

NORTH

Courage & Curiosity

We keep going forward. We ask questions, explore new ideas, and embrace learning with an open heart.

WEST

Gratitude & Reflection

We look back with thankfulness. We celebrate our experiences and learn from every step of the journey.

EAST

Opportunities & Hope

We embrace new possibilities. We welcome change and look ahead with optimism and excitement.

SOUTH

Kindness & Roots

We stay grounded in kindness, faith, and family. We treat others with respect and build strong, loving relationships.

THE HEART

Love Guides Us

At the center of our compass is love—the foundation of every choice. A mother's love, a family's love, and love for others help us make wise, caring decisions.

THE GEAR

Learning & Growth

The gear reminds us that life is a journey of growth. Step by step, we build knowledge, character, and skills that help us thrive and make a difference.

TOGETHER, WE NAVIGATE WITH PURPOSE.

When we follow our compass—guided by love, grounded in values, and open to discovery—every choice becomes a step toward a brighter future.

This compass does not point to perfection.
It points to presence, progress, and the endless adventures of growing together as a family.

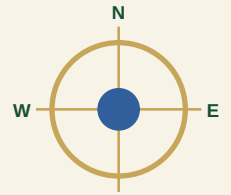

COMPASS LIBRARY

VOLUME ONE

SCIENCE, INVENTION & DISCOVERY

Explore, observe, build, and discover.

ELEMENTARY-AGE
CHILDREN IN MIND
Difficulty varies by game

1 Alba: A Wildlife Adventure

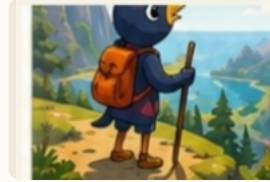

Explore a beautiful island, animals, and nature while helping protect wildlife and the environment.

2 Lil Gator Game

A playful adventure full of friendship, imagination, and discovery, with no combat-focused goals.

3 A Short Hike

Climb, explore, fish, and find hidden treasures on a peaceful island.

4 TOEM

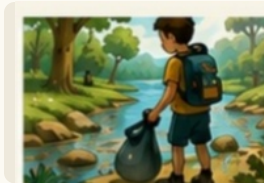

A black-and-white photography adventure that encourages observation, creativity, and solving clever puzzles.

5 Beasts of Maravilla Island

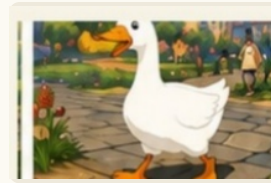

Explore an island, photograph animals, and learn about ecosystems and the natural world.

6 Fresh Start

Clean up and restore beautiful places - a relaxing game about taking care of our planet.

7 Untitled Goose Game

A silly, lighthearted puzzle adventure focused on creative problem solving.

Compass Library - A Whole Child Happenings family resource

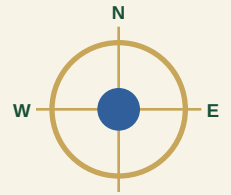

Parents should review current game content, settings, and platform features before play.

COMPASS LIBRARY

VOLUME TWO

BUILDING, CREATIVITY & IMAGINATION

Create thoughtfully. Build at your own pace.

**ELEMENTARY-AGE
CHILDREN IN MIND**
Difficulty varies by game

1

Minecraft Education

Build, code, collaborate, and solve guided learning challenges in Minecraft Education, designed specifically for educational use.

2

LEGO Builder's Journey

Solve gentle building puzzles with LEGO bricks in a calm, creative journey focused on thoughtful construction.

3

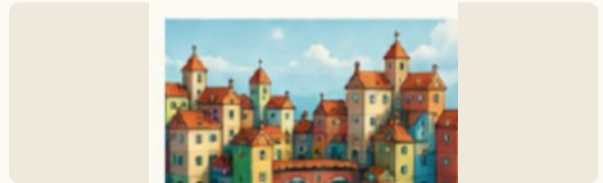

Tiny Glade

Create cozy dioramas, castles, and countryside scenes in a peaceful sandbox with no combat or goals.

4

Townscaper

Create colorful towns and landscapes with a few clicks in an open-ended, low-pressure building toy.

Compass Library - A Whole Child Happenings family resource

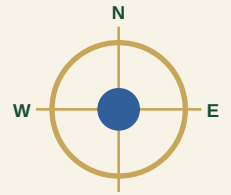

Parents should review current game content, settings, and platform features before play.

COMPASS LIBRARY

VOLUME THREE

TRAINS, TRANSPORTATION & MACHINES

Design, experiment, and see how things work.

**ELEMENTARY-AGE
CHILDREN IN MIND**
Difficulty varies by game

1 Station to Station

Design beautiful railway networks in a relaxing world. Plan tracks, manage signals, and watch your rail empire come to life.

2 Kerbal Space Program Enhanced Edition

Build rockets, explore space, and learn real science along the way. Send Kerbals into orbit and discover the wonders of our universe.

3 Mini Motorways

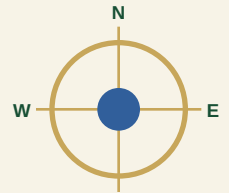

Design road networks that keep cities moving. A beautiful and relaxing game about planning, flow, and problem solving.

NOTICE - DISCOVER - SHINE BRIGHTLY

Compass Library - A Whole Child Happenings family resource

Parents should review current game content, settings, and platform features before play.

**ELEMENTARY-AGE
CHILDREN IN MIND**
Difficulty varies by game

1

Microsoft Flight Simulator

Fly anywhere in the world in incredible detail. Learn about landmarks, terrain, weather, and navigation.

2

Terra Nil

Restore barren land into thriving ecosystems. Clean the soil, purify water, and bring nature back to life.

3

Dorfromantik

Place tiles to grow beautiful landscapes and connect villages, rivers, and forests in a relaxing puzzle about planning and nature.

Parents should review current game content, settings, and platform features before play.

COMPASS LIBRARY

VOLUME FIVE

NEXT-STEP GAMES FOR GROWING THINKERS

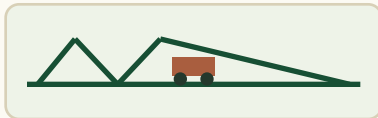

More challenge, deeper thinking, and a little more speed.

**SLIGHTLY OLDER
CHILDREN IN MIND**
Challenge varies by child

1 POLY BRIDGE 3

ENGINEERING & PHYSICS

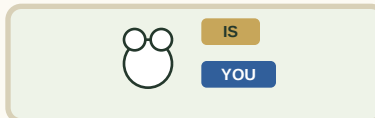

Design bridges, test them, watch what fails, and redesign. A strong next step for structural thinking and real problem solving.

Parent note: some platforms note infrequent cartoon/fantasy violence.

2 BABA IS YOU

LOGIC & FLEXIBLE THINKING

Move words to change the rules of each puzzle. It rewards careful reading, experimentation, persistence, and unconventional thinking.

Parent note: online/platform features can vary.

3 HUMAN RESOURCE MACHINE

CODING & ALGORITHMS

Program a little office worker to complete increasingly complex tasks. It introduces sequencing, logic, optimization, and coding concepts.

Parent note: some platforms note infrequent cartoon/fantasy violence.

4 MONUMENT VALLEY 2

SPATIAL REASONING

Manipulate impossible architecture and visual perspective through beautifully designed puzzles that become increasingly challenging.

Parent note: selected for spatial reasoning and polished puzzle design.

5 MARS FIRST LOGISTICS

MACHINES, PHYSICS & DESIGN

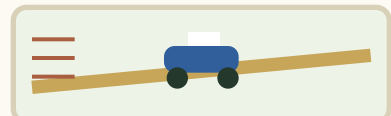

Build physically simulated rovers with springs, hydraulics, servo motors, rocket engines, and more, then solve unusual delivery challenges across Mars.

Parent note: playable solo; online co-op and community features are also available.

6 HOT WHEELS UNLEASHED 2

SPEED, STUNTS & CRASHES

Race toy vehicles through fast tracks with drifting, boosts, jumps, and energetic vehicle crashes—without simulating people being injured.

Parent note: ESRB E, No Descriptors; Users Interact and In-Game Purchases.

Parents should review current game content, settings, online features, and platform options before play.

Closing Thoughts

The Greatest Adventures Don't Need a Screen

As you close this book, we hope you remember one simple truth:

Technology is a tool.
Childhood is the destination.

The most meaningful moments in a child's life
are often the simplest ones...

- 🍃 Building a blanket fort.
- 🍃 Watching butterflies.
- 🍃 Throwing rocks into a creek.
- 🍃 Reading together before bed.
- 🍃 Building with blocks.
- 🍃 Asking "Why?"
- 🍃 Finding a ladybug.
- 🍃 Creating something that didn't exist yesterday.

Screens may entertain for a while,
but curiosity, kindness, creativity, and time together
shape a lifetime.

Whether your family chooses digital games often,
occasionally, or not at all, our hope is that every
decision begins with the same question:

"Will this help my child flourish?"

If the answer is yes, enjoy it together.

If the answer is no, it is perfectly okay to choose
another path.

There are countless wonderful adventures
waiting beyond a screen.

May your home be filled with conversations...

Discovery...

Laughter...

Wonder...

*And memories your children will carry
long after childhood has passed.*

Our Family Compass

Choose connection
over comparison.

Choose curiosity
over convenience.

Choose wisdom
over pressure.

Choose childhood
whenever you can.

Notice. Discover. Shine Brightly.
